

# LET'S SAVE MONEY!

Which coupon is more valuable?

Give an example that supports your answer.

One of the following graphs shows what you will pay if you use the “fall rolling” coupon and one shows what you will pay using “home, happier” coupon. Which is which?

If you were to put one graph on top of the other, would the lines cross?

How do you know?

# LET'S SAVE MONEY!

Which coupon is more valuable?

It depends on the price of an item. Explore the many possibilities.

Give an example that supports your answer.

If any single item is priced over \$50, the “fall rolling” is the better choice.

One of the following graphs shows what you will pay if you use the “fall rolling” coupon and one shows what you will pay using “home, happier” coupon. Which is which?

fall rolling

home happier

If you were to put one graph on top of the other, would the lines cross?

yes

How do you know? The slopes are different: home happier is steeper.
