

How many dollar bills are on this wall?

How did you arrive at your answer?

This photo was taken at S.K.O.B. in Siesta Key FL. If you knew the dimensions of the room, explain how you would calculate how much money was stapled to the walls.

How many dollar bills are on this wall?

102

How did you arrive at your answer?

Some may count, but using proportions is more efficient. How did you adjust for overlap?

This photo was taken at S.K.O.B. in Siesta Key FL. If you knew the dimensions of the room, explain how you would calculate how much money was stapled to the walls.

Find the surface area minus the area of the floor. Using the ketchup bottle, or straws, estimate the area of the photo. Divide by this photo area and multiply by 102.
