

Look at this photo and make five inferences.

An inference is a conclusion reached based on evidence and reasoning.

Here are 5 possible inferences with evidence.

- 1. The sun is shining. Note the photographer's shadow.
- 2. Many different people have walked here. Note the number of different foot prints.
- 3. It is cold outside. Note the snow. It must be 32° F (0 C) or less.
- 4. A sled traveled here. Note the evenly spaced tracks in the snow.
- 5. There is an asphalt path under the snow. Note the black under the snow in some places.
