

AI, Artificial Intelligence, is in Your Life!

Guess* at least three examples where you may have used AI today, here's one to get you started:

You opened your phone with face ID.

1.

2.

3.

* Guessing means it's ok if you're wrong 😊

What is Artificial Intelligence (AI)?

Like, really!

Think of AI like a Super Brain! 🧠💡

- It's what makes things like Siri, Alexa, and even your TikTok feed smart!
- AI helps machines *think* without needing us to tell them *every single thing*!

Did you come up with these examples?

- **Voice Assistants:** "Hey Siri, what's the weather?"
- **Netflix:** "Here's a movie you'll love!"
(AI is your movie BFF 🎬)
- **Self-Driving Cars:** Imagine a car that drives *itself*! 🚗🤖
