

Engineers Week

Feb 16-22, 2025

DESIGN
YOUR
FUTURE

DISCOVER
ENGINEERING

Engineers are problem solvers. They design, create and build machines and other structures in hopes of making the world a better place.

Think of a problem you would like to solve. Be prepared to share with your classmates.

Engineers are problem solvers. They design, create and build machines and other structures in hopes of making the world a better place.

Think of a problem you would like to solve. Be prepared to share with your classmates.

Class: share your ideas

- If time permits, brainstorm ideas to solve your identified problem.
- Pick one of the problems a classmate has suggested and everyone brainstorm ideas to solve that problem. Discuss pros and cons of the solutions.
- Search the web and see if others have posed ideas to solve the identified problem. Discuss the solutions, both pros and cons.
